

To Whom It May Concern,

In accordance with CGS 22a-66a(h)(2) "Any pesticide business prior to making a pesticide application on any private lake or pond with more than one owner of shoreline property shall provide notice of the date of application to any owner or tenant of such shoreline property that abuts the lake or pond to be treated." For aquatic pesticide use on a water body with more than one owner of shoreline property, two attempts of notification must be made no less than 24 hours apart, and no sooner than 24 hours before application. All Habitat Services will be conducting an application of EutroSORB on Tuesday, September 8th, 2026, to treat nuisance algae throughout Samp Mortar Reservoir.

Do not use the water for the following purpose(s) until the date noted below:
